YOUTH ADVISORY
COUNCIL WEST TAMAR

2020-2022 WEST TAMAR YOUTH STRATEGY GOALS

Goal 1 – engaged young people

Council will commit to support young people to be active, engaged with the outdoors and with their community. With social media dominating how we connect, socialise and even compete, Council will get creative in programs, infrastructure and events for our young people to engage with opportunities in their area.

Goal 2 – connected young people

Council recognises that accessing the right support at the right time can be difficult when living in a regional municipality. Our plan is to help bridge the gap between the young person and the service required to help them thrive. Driver Mentoring, provision of buses for youth events, even bringing the service to the young person are a few ideas we have.

Goal 3 – empowered young people

Every young person is on a journey of becoming their own person in the wider community. Through creative and innovative ways, Council will continue to provide services for young people to support their needs through programs such as Leadership development, Youth Grants Program and providing various seminars to schools around party safe, online safety, and other health and wellbeing issues. We strive to develop skills and resources for young people to be more independent, and confident to engage in life.

Goal 4 – ambitious young people

The West Tamar is great for young people, but we also recognise that it could be better. Council will work to support young people with their passions, their visions and the projects that not only improve the West Tamar, but also improve the outlook of their own lives. Council actively support young people representing our region through sport, a field of excellence or even a community group they are travelling with. Not all young people in the West Tamar will stay, but we will endeavour to help all young people to be inspired and driven to achieve their goals, no matter where it takes them.
